About Me

Computer Teacher and IT Educator with experience teaching learners from Nursery to Grade 7 and training college students in computer applications, web design, and programming. Skilled in MS Office, ScratchJr, HTML5, CSS3, Bootstrap, JavaScript, ReactJS, responsive web design, and basic internet/networking.

Previously worked as a Web Designer at Moneycontrol, gaining valuable real-world experience in design and web development.

Currently pursuing ECCEd to strengthen early-childhood teaching practices. Passionate about creating engaging, practical, and age-appropriate technology lessons that build digital literacy, creativity, and problem-solving skills.

Teaching & Classroom Skills

- Primary computer education
- Early-childhood learning
- Lesson planning
- Activity-based learning
- Project-based learning
- Classroom management
- Computer-lab safety
- Student assessment
- Parent communication
- Differentiated instruction
- Digital citizenship and internet safety

Computer and IT Skills

- Computer fundamentals
- Operating systems
- MS Word, Excel, and PowerPoint
- MS Paint
- ScratchJr
- HTML5 , CSS3, Bootstrap, JavaScript
- DOM concepts
- ReactJS
- jQuery
- WordPress
- Responsive web design

Experience

Computer Teacher / Web-Design Faculty | Infinitech Institute Mumbai (Currently working Here)

- Taught computer fundamentals and MS Office applications, including **Word, Excel, and PowerPoint.**
- Delivered age-appropriate **computer lessons for primary learners**, including basic operations, typing, drawing, presentations, and digital safety.
- Used **demonstrations, guided practice, worksheets, games,** and small projects to make computer concepts easier to understand.
- Conducted **practical sessions** and supported students with different levels of computer knowledge.
- Maintained a **safe and organized computer-lab environment.**
- Assessed student learning through **practical activities, quizzes, and project work**.
- Prepared **lesson notes, worksheets, exercises, and project-based assignments.**
- Provided individual guidance and encouraged students to **build confidence in using technology**.

Web Designer | Network 18 (Feb-2021 - Dec 2024)

- Designed and maintained web pages and user-interface layouts for a large digital media platform.
- Used HTML, CSS, JavaScript, and web-design principles to create structured and user-friendly pages.
- Worked with content, design, and development teams to implement website updates.
- Applied responsive design principles for different screen sizes and devices.
- Tested pages for layout consistency, usability, and cross-browser compatibility.
- Troubleshot interface and presentation issues and provided practical design solutions.
- Worked in a professional production environment with deadlines, collaboration, and quality standards.
